

Directions: Use the diagram to guide piece placement.

Sew piece E (background) to piece E (lid). Add background piece A to each side.

Draw a diagonal line on the wrong side of each piece C (background). Then place each piece C on a corner of piece B (jar) so line is diagonal across the corner, right sides together. Sew ON the line. Press towards the corner. Trim if you wish.

Sew piece D (background) to each side of the Jar.

Pin the Jar Lid section to the top of the Jar, so that the lid is centered on top of the jar and sew it on.
